

## Friend Lyrics

### VERSE 1

You were so fast  
To believe in me  
We were young back then  
Tangled in the stars  
But time moves so fast  
I've served coffee in five different cities now

### PRE-CHORUS

I'm not good at faking  
But I'm not good at speaking out  
I am quickly blending into all of my fear and doubt

### CHORUS

Friend, you were on both sides  
Pulling me up and dragging me down (and I know, it took time for me to say)  
Friend, you were on both sides  
Pulling me up and dragging me down (and I know, it took time for me)

### VERSE 2

It was early days in the band  
We were making tour plans  
I pulled out my costume during practice in your shed  
You said don't wear that dress, we have to think about who we are now

### PRE-CHORUS

Well I'm not good at faking  
But it all changed in me somehow  
I could not stop smiling as all the joy in me drained out

### CHORUS

Friend, you were on both sides  
Pulling me up and dragging me down (and I know, it took time for me to say)  
Friend, you were on both sides  
Pulling me up and dragging me down

### BRIDGE

There is a bridge between our birthdays at midnight  
Somehow I can not bring myself to call  
I was a terrible friend, I pushed you right to your end  
You said your limit was drawn but I wanted more  
I wanted more

### CHORUS

Friend, I've been on both sides, pulling you up and tearing you down (and I know it took time for me to say)

Friend, I've been on both sides, pulling you up and tearing you down

I've been on both sides

Am I on both sides now?
